'Provis' Managed Communities Reduce 4733 KWH of Electricity During Earth Hour

Abu Dhabi – April 1st – Provis Estate Management marked Earth Hour 2019 by switching off non-essential lighting across 10 Provis managed communities between 8:30 PM and 9:30 PM on Saturday 30th of March. Provis also encouraged all community members to take part in the global initiative to raise awareness about the importance of protecting the environment.

As a result of the Earth Hour participation, more than 4733 KWH of electricity was saved and reduced carbon footprint equivalent to 2840 kg of CO₂, which could light a rural household for more than eight months, further adding up to the company's efforts to conserve energy and prevent global warming.

Participating communities included Gate and Arc Towers, Sun and Sky Towers, Al Zeina, Al Bandar, Al Muneera, Al Hadeel, Al Ansam, Al Raha Gardens, Golf Gardens, Al Ghadeer etc.

Provis was launched in February to deliver market leading, innovative estate management solutions to clients across the UAE.
